

Please read the following and then sign the bottom and fax back to our office. **YOU MUST SIGN THIS FORM AND FAX IT BACK TO OUR OFFICE!!!! Before you schedule your job. If we do not have this form then we cannot schedule you.**

**\*\*\*Please note by completing and signing the bottom of this form you are stating that you have read the Prep Sheets and will Prepare your surface according to these Prep Sheets, there are a total of 5 pages, make sure you receive all 5 pages, if not please call us.**

1. Please make sure you read the entire prep sheet package. If our crew arrives and the deck area is **NOT PREPARED PROPERLY OR IS WET!!!** and you have to reschedule there will be an extra \$200.00 added to the original Invoice price.

**2. We are NOT Responsible for untarped/unprotected areas!!**

Please make sure all areas under or around the area being fiberglassed is tarped/covered. (windows, doors, siding, stone, floors, etc..) If we have to tarp/cover any areas....We will charge \$ 1.00 per Square Foot, for doing this service. **Example:** If you have a 200 sq ft area, you will be charged an extra \$200.00 if we have to tarp/cover the area.

**3. You will be charged extra if we have to go back and apply the color coat (upon your**

**request)** If you have our Company hold off on the coloring of the deck/pan area to another day

- Then you will be required to pay \$3.00 per Square Foot to have the area colored. **\*\*This will**

be in addition to the original invoice price.\*\*

**4. WE ARE NOT RESPONSIBLE FOR:** Water puddles on finished surfaces. Pitch of 1/4"

per 1 foot (minimum) is recommended for proper water run-off. **It should be understood that**

**pitch problems, uneven surfaces and/or water run-off CANNOT be corrected with fiberglass.** Any changes that are deemed necessary must be made by others before fiberglass is

installed. Check deck surfaces with string and level before nailing down overlayment plywood.

5. We Double our product over all of your plywood "seams". This may cause a slight raise

where your plywood is butted to each other, which may cause damming of water. Allow 1/4"

Pitch per 1 Foot for proper run-off of water and to keep puddling to a minimum. We are NOT

Responsible for any water standing on surface. All water runoff is other's responsibility.

**NOTE: Allow 1/2" per foot of pitch..use chalk line to check for low spots to prevent standing water on your deck. Our Product will not provide any additional pitch for run-off of water on your deck.**

- 6. Posts Going through the deck floor prior to fiberglassing will NULL & VOID the Warranty. We HIGHLY Advise you to wait to put the posts in after we are done fiberglassing.**
- 7. We DO NOT Guarantee Concrete Surfaces. Fiberglass may not adhere correctly.**
- 8. All work is C.O.D., so a check must be on the job when crew arrives.**
